## **2.8.1 Phenomenon 5: Experiencing God's Guidance and Grace**

By now, I have already described essential processes of the spiritual path.

It is not always easy to digest what the journey toward God demands of us.

After the hard work in the fields during spring, the fruits slowly ripen over the course of the summer. Eventually, the harvest season arrives.

In the same way, if we have created the necessary conditions and patiently endured the phases of growth, we too may receive God's grace.

In this section, I would like to explain the principle of how we can receive God's grace and guidance.

To make this more tangible, I will share some personal experiences.
